

The ConMoto Consulting Group is a high-performing management consultancy, working with top-ranking companies in Germany and internationally. We are always on the lookout for new talent to help us shape growth – people who will seize the opportunities we offer for their own development.

We are looking for you to strengthen our team as an:

**Experienced Consultant  
Maintenance and Asset Management  
(m/f/d)**

Your tasks include:

- Sustainable increase of effectiveness and efficiency in production and logistics
- Analysis and evaluation of production and logistics processes
- Plant assessments and logistics score tests
- Identification and elimination of all types of waste
- Value stream analysis and design
- Potential analyses
- Performing ConMoto basic improvements
- Identification and processing of fields of action for the sustainable realization of potentials

- Implementation of high-performance production systems

Your profile:

- Completed course of studies in mechanical engineering, production technology or industrial engineering
- Distinctive experience as a consultant in tasks listed above
- In-depth knowledge of lean principles and production systems
- Confident application of relevant methods such as value stream mapping and design, waste analysis, 5S, shopfloor management, standard work, production smoothing, etc.
- Knowledge of quality strategies for products and processes
- Know-how and experience in Kaizen and TPM
- Commitment to continuous development
- Excellent demeanor and high persuasiveness

among the management and on the shop floor

- Authentic client and service orientation with very good communication/presentation skills at all levels
- Quick understanding, objective and sound judgment
- High initiative and commitment
- Fluent in German, English and/or other foreign languages
- Very good knowledge of common office applications
- Willingness to travel depending on project locations

The ConMoto Team

Working at ConMoto means practicing cooperation, integrity and reliability. We want each team member to feel valued and trusted. Aspiring to be a reliable and attractive employer, we offer ongoing professional development and a clear career ladder. We support you in planning your future with periodic individual development discussions as well as targeted education and training.
